V2-600 -- V2-800
softbox -- ecobox -- blackbox

Hêta-850
widebox -- ecobox

DISCOVER
2024

About this catalogue:

After choosing one of our Frontloads you can start to customise your cargobike. In this catalogue we show you all the accessories that fit the Douze Frontload models V2 600, V2 800 and Hêta 850. After customising you will have the set-up that fits the life you want to share with your family and friends.

All accessories are developed respecting a maximum of safety and comfort for your passengers. The straps of the different seats are equipped with a magnetic buckle to make the different handling smooth. Most of the accessories are compatible with all models, if not this is indicated. They are all CE certified.

Don't forget to think about the comfort of the rider. When you are not the only rider make your cargobike accessible for everybody by adding an adjustable handlebar and seat post. Now you can rapidly change the height of both handlebar and seat and all conductors will feel safe and relax.

Check out the other accessories that can help you during your daily rides.

Thanks

The different boxes:

Soft box

The Soft Box is a set of components allowing you to easily fit out the front of your V2. Non-slip wooden floor, an aluminum structure and a waterproof fabric bag. Light and resistant, it is the ideal everyday equipment. Pocket on the back.

art nr 000330 (V2/600)
art nr 000332 (V2/800)
not compatible with Hêta

Eco box

Eco-designed from exterior-grade birch wood panels. Two steps are integrated into the floor to facilitate access for children. Up to four children can be transported in the Eco Box with two child seats facing each other.

art nr 000326 (V2/800)
not compatible with V2/600

Black box

This box is made of very resistant recycled ABS, the floor is made of non-slip plywood. It incorporates a step so that children can access it independently, it even becomes a game.

art nr 000324 (V2/800)
not compatible with Hêta and V2/600

Wide box

The Wide Box is made in PPE and has a side-tube in aluminium. There is a non-slip wooden floor and a children's step so children can access easily.

art nr 004279 (Hêta)
not compatible with V2/600 and V2/800

All different boxes come with a soft cover included.

For the youngest passengers

Hêta

V2

Baby safety seat

The Melia baby seat is designed for cargobikes so you can always take your baby (0 to 9 months) in a safe and comfortable way on your ride. It is possible to have an older child sit next to the baby.

art nr 000341

Toddler safety seat

After 8 months your toddler can sit but there is a chance that he/she moves under the belt of the standard seat. The toddler seat will prevent this and in addition, the seat is better for the neck and back of your child. It is used until 18 months.

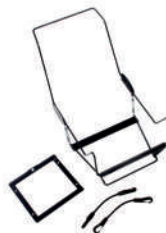

art nr 000000

Child Seat Adapter

This seat adapter allows you to mount a regular child seat in the cargobike. It is a way to fit a third passenger in the front of the cargo bike against the direction of the bike's ride.

art nr 000363

Maxi-cosy support

This solid and safe support works as a fixation for your maxi-cosy. It is a suspended structure that you attach to the floor of the cargobike. It is easy to remove when the maxi-cosy does not need to be taken along.

For cool kids & friends

Hêta

V2

Child seat Soft box

A child seat for one or two children aged between two and ten. The Soft Box seat is fixed directly to the floor using special inserts. As a result, the centre of gravity is extremely low because the passengers sit very low. Comfortable ride guaranteed.

art nr 000333 (V2/800) art nr 000331 (V2/600)
not compatible with Hêta

Child seat Wide box

This child seat has a big and soft cushion made in PPE recycled foam. It has a large foam back- and siderest for maximum comfort and stability for the passengers. Two adjustable belts and magnetic buckles do the rest. This child seat is part of the H-project.

art nr 004283
not compatible with V2/800 and V2/600

Child seat Black box

Adjustable in height, this bench seat can be adjusted according to age. The older the child, the longer the back and the higher the weight. The seat will therefore gradually lower so that the stability of the bike remains assured.

art nr: 004357

Child seat Eco box

This bench, made of a seat and a backrest, is positioned between the walls of the Eco Box. The children's comfort is ensured by high density foams. Each seat is equipped with two three-point seat belts with quick-release buckle system.

Rain protection

Hêta

V2

Canopy for Soft box

This streamlined tent is added to the opening of the Soft Box to effectively protect children from rain, wind and sun. Composed of a folding aluminum structure and glass fabric. With its wide openings and the removable mosquito net, this Canopy is very easy to live with.

art nr 000327 (for V2/600) art nr 000328 (for V2/800)

Canopy for Wide box

The streamline and foldable aluminum structure with a specifically design to fit the Wide Box. Anti-UV fabrics, transparent crystal windows, mosquito net and storage bag are included

art nr 004282
not compatible with V2/600 and V2/800

Canopy for Eco box 2/4

The Canopy Eco Box protects the children seated in this compartment from bad weather and the sun, so that nothing disturbs them during the journey. Large windows make this Canopy very bright. A mosquito net and vents provide maximum ventilation. It is removable and has a compact carrying bag.

art nr 000308 (for 2 children) art nr 000309 (for 4 children)

Canopy for Black box

This canopy is added to the Black Box to effectively protect children from rain, wind and sun. Composed of a folding aluminum structure and glass fabric. With its wide openings and the removable mosquito net, it is very easy to live with.

For extra safety

Ringlock

The Ringlock ABUS Pro Amparo 4750SL is ART2 certified. It is installed on the back side of the frame, underneath the seat. You never forget your lock at home. It will lock the rear wheel very quickly.

art nr 000340

Chainlock

This is the kind of lock that makes potential thieves sad and change their minds. It is 85cm long so you can easily connect your cargobike with a pole or with a fence. Comes with two strong keys. Lock and impress...

art nr 000486

Ringlock extension

This chain is an extension of the ringlock. This allows you to lock your bike to something without needing an extra key. Also easy to lock the bike of one of the children who is already cycling by themselves

art nr 000000

Insurance

Ask your bike shop about theft insurance options, hear about them at your insurance agent, ... Conditions and ways of compensation may vary. Close the insurance at the time of purchase to avoid cycling around uninsured

art nr 000000

The conductor's extra comfort

Adjustable stem

The Up & Down adapter is a handlebar-height adjusting system. By means of a quick clamping and release mechanism, all functions – raising, lowering – can be implemented with ease and without tools.

art nr. 001902

Adjustable seat post

This telescopic seat post allows you to change the height of the seat without tools. The seatpost itself stays in the frame fixed with a classic seatpost clamp.

art nr 002349

Suspended seat post

The big tyres of our cargobikes give a lot of comfort but... If you are the one who has never enough, when you are the one who has a problem in his back, ... Then why not choose for a suspended seat post?

art nr: 004357

Quick release

To quick release or not to quick release? A quick release is a very economic alternative for an adjustable seat post. But keep in mind your seatpost can be easily stolen.

art nr 000593 (34.9mm)

Central display

Cargobikes equipped with the M500-motor do not need a display because they work with an app. For those who really want a display it can be installed. You will have all the information you want.

art nr 004008

Rear carrier

The Douze carrier follows international standards and is compatible with all kind of bike bags, ... It can be useful to get 100% organised: Kids in the front, goods in the back and go !

art nr 002962

Rain cover

When you do not always have the chance to put your bike under a roof or in the garage we recommend you our rain cover. The bike will stay dry and clean and may also avoid drawing the attention of people with not so good intentions.

art nr 001945
